# The God-Damned Nazi Illuminativists Are About To Make Their Final Move (2019-2020)

Based upon **The Story Behind The Creature From Jekyll Island** by G. Edward Griffin *and* **Secrets of the Federal Reserve** by Eustace Mullins.

Also see: <https://www.youtube.com/watch?v=VOm7JLxoOLo>

World conditions as well as Bible chronology indicate that the last days of End Times began on 23 December 1913, when **US President Woodrow Wilson\*** signed the **Federal Reserve Act** pushed into law by **Rep. Carter Glass** after a series of financial panics (particularly the **panic of 1907**) were orchestrated by the **Four Horsemen of Banking** (Bank of America, JP Morgan Chase, Citigroup and Wells Fargo), which own the **Four Horsemen of Oil** (Exxon Mobil, Royal Dutch/Shell, BP and Chevron Texaco); in tandem with Deutsche Bank, BNP, Barclays and other European old money behemoths. This **non-government agency** is **privately-owned** in part by the **Rothschild banking dynasty**, which controls the wealth of the Papacy and The Crown, and **Rockefeller Financial Services**—the true criminals behind the Luciferian **Bush-Rumsfeld-Cheney terror cabal's 9-11 fiasco**.

\* Note: ☆ **Jacob Schiff** (who bankrolled ☆ Trotsky's Bolshevik Revolutionary Communists and the murders of the **Holy Romanov family**), ☆ **Bernard Baruch**, ☆ **Henry Morgenthau**, **Thomas Fortune Ryan**, and ☆ **Adolph Ochs** all financed the Wilson campaign.

In November 1910, six men—☆ **Nelson Aldrich**, **A. Piatt Andrew**, **Henry Davison**, **Arthur Shelton**, **Frank Vanderlip** and **Paul Warburg**, who's combined wealth accounted for ¼ of the entire world's wealth—met in secret at the **Jekyll Island Club**, off the coast of Georgia, to write a plan to reform the world's banking system. It stands as a classic example of compromise—a decentralized central bank that balanced the

**creation of fiat-money out of nothing** (viz., the **Mandrake Mechanism**) and interests of private banks over populist sentiment—that led to the **central control of the monetary system by (((the filthy rich)))**; the concept of **usury** as the payment of **interest on pretended loans**; the true cause of the **hidden tax called inflation**.

At the time God's Kingdom began ruling in heaven, one of God's first actions was to expel Satan the Devil and the demons from heaven and restrict their activity to the earth (*q.v.*).

Don't expect the commercially driven, ultra-powerful oligopolistic (**(((mainstream mass media)))**), whose primary loyalty is to its advertisers and government rather than to the public interest to tell you the truth—as **media ownership** is complete **monopolistic State control** over information in direct or indirect ways—nor will a quick online check of this information provide you with direct links to the truth... the **algorithms** used by **social networking platforms** and **search engines**, such as **Google**, **Facebook**, **Twitter**, *etc...*, have been configured to **restrict exposure to differing viewpoints and news feed**, hence their invention of the distraction term **"Fake News,"** which (((they))) deem anything (((they))) don't approve of (*i.e.*, **"newspeak"** for the truth). This is commonly referred to as **"echo-chambers"** and **"filter-bubbles"**: (A filter bubble—a term coined by Internet activist **Eli Pariser**—is a state of intellectual isolation that results from personalized searches when a **website**

**algorithm** selectively separates users from information that disagrees with their viewpoints, effectively isolating them in their own cultural or ideological bubbles and having negative implications for civic discourse—a **phenomenon that harms freedom to thought and opinion**).

**Media integrity** is at risk when small number of companies and individuals control the media market. By 2000, six corporations had ownership of most media, and today five dominate the industry: **Time Warner**, **Disney**, **Murdoch's News Corporation**, **Bertelsmann** of Germany and **Viacom**. Globally, large media conglomerates include Bertelsmann (BMG), National Amusements (Viacom Inc. and CBS Corporation), 21st Century Fox Inc (merging with Disney on the middle of March 2019), Sony Corporation, Comcast, The Walt Disney Company, AT&T Inc., Fox Corporation, Hearst Communications, MGM Holdings Inc., Grupo Globo (South America) and Lagardère Group. As of 2018, the largest media conglomerates in terms of revenue rank **Comcast**, **The Walt Disney Company**, **AT&T**, **CBS Corporation** and **Viacom** *per* Forbes. The clientelist relations between the (((Jewish-owners of the media))) and political centers of power—a *quid pro quo* exchange of goods and services for political support—enables excessive instrumentalization of the media for particular profitable political interests.

**"Quis custodiet ipsos custodes?"**  
(*"Who will watch the watchmen?"*)

**Roman poet**  
**Juvenal**

"You know very well, and the stupid Americans know equally well, that we control their government, irrespective of who sits in the White House. You see, I know it and you know it that no American president can be in a position to challenge us even if we do the unthinkable : [*cf.*, the NSA-classified cover-up of the 8 June 1967 Israeli Air Force jet fighter aircraft and Israeli Navy torpedo attack on the noncombatant United States Navy technical research ship, **USS Liberty**—a World War II-era cargo ship refitted as a surveillance vessel and deployed to the eastern Mediterranean—in international waters amid the jubilee celebrations for the Six-Day War, in which 34 American servicemen were killed and 174 were wounded]. What can they (Americans) do to us? We control congress, we control the media, we control show biz, and we control everything in America. In America you can criticize God, but you can't criticize Israel..." : [*cf.*, **Israeli Prime Minister and terrorist war-criminal Benjamin Netanyahu** addressed a joint meeting of hard-line pro-Israel Congress in March 2015 and received 29 standing ovations during the roughly 50-minute speech—consisting of over 1/4 of the time he addressed the monkey-puppet audience lauding him (*i.e.*, Israel pulling their strings and having their hand up their arses working their mouths); the point which drew particularly raucous applause—concerning the ever-growing population of militant Jewish settlers in the Palestinian West Bank and Israeli nuclear capabilities—was at odds with international law].

## Part One

In the 1950s a weapon was invented that has become more powerful than America's deadliest weapons of mass destruction—it is **the weapon of mass deception** and it is right **in our own living rooms**—the hypnotizing world of picture **television**, bringing us the news of the world through two central news agencies called **Reuters** and **The Associated Press**. The **Rothschilds** bought Reuters in the 1800s which later bought The Associated Press and made the Rothschild family owners of **the world's largest central news services to the present day**—and, as the world depends on these Rothschild-owned central news services as their main source of news and information... they will be the ones who tell us how and what to think, say and do. Repent and rebel, O ye hive-mind lemming masses

In his book called **"Who Owns the TV Networks,"** author **Eustace Mullins** claims that the major TV networks, radio stations, newspapers and publishing empires are controlled by the **Rothschild-Rockefeller-Morgan fiat-money cartel** through their corporate conglomerates; the banks are owned media conglomerates, including weapons manufacturers **General Electric** and **Westinghouse**, which profit from promoting wars and pimpish control over the internet. Publishing houses, recording studios and top cable companies can all be traced back to the same big five media empires: **General Electric**, **Time-Warner**, **Viacom**, **Disney** and **News Corp** (*v.s.*). These media monopolies are owned either directly or indirectly by the **Rothschild-JP Morgan-Rockefeller-Oppenheimer Brotherhood!** and, yes! there are now more stations and more media voices... but they're all coming from the same ventriloquist with the same hand up every couch-potato ass in the world.

Now, every TV show needs corporate sponsors... and corporate sponsors sponsor **pro-business / pro-government anti-Christian programming**—and journalists, who are paid by millions, support the agenda of the big five media owners... *or else*. More-so, while two-thirds of the world goes to bed hungry, these banksters offer **kazillion dollar sponsorships to sports athletes** to play with their balls! why!? because they keep the dumbed-down consumer masses distracted from the important issues.

The **media and banking monopolists** now have the power to make or break political leaders around the globe... which is why the

networks haven't made a TV movie of the week about how the **Bush crime family** made their fortune—the movie could be called **"The Awful Truth,"** starring George W's great-grandfather **Samuel P. Bush**, whose **Buckeye Steel Castings Company** supplied parts for **Edward Harriman's** railroads, who in turn provided rail shipments **John D. Rockefeller's Standard Oil**, who in turn acquired monopolized financing from the Rothschilds—the movie could be made into a TV series starring Samuel's son **Prescott Bush** as the managing director of a Nazi steel manufacturing plant on the German-Polish border called **Consolidated Silesian Steel Company**.<sup>1</sup>

<sup>1</sup> **Fred C. Koch**, the father of billionaire rightwing political activists Charles G. and David H. Koch, founded a company, **Winkler-Koch Engineering**, which built a large oil refinery in Hamburg for the Nazi regime, personally approved by Hitler and playing a vital role in the German war machine and in the growth of the Koch family fortune. **Chase Manhattan Bank** worked in close collaboration with the **Gestapo**; **Dow Chemical** sold huge quantities of magnesium to the Nazis for the making of incendiary bombs and instructed them about technical innovations in refining oil; **Henry Ford's** Cologne plant used slave laborers between 1941 and 1945 for the invasion of Czechoslovakia; **General Motors** subsidized in the swift conquests of much of Europe; **IBM** supplied the technology to facilitate the **Final Solution**; **International Telephone & Telegraph (IT&T)** provided German armed forces with switchboards, telephones, alarm gongs, buoys, air raid warning devices, radar equipment, fuses for artillery shells, and ingredients for rocket bombs; and, **Prescott Bush**, father of **President George H. W. Bush**, who was director of the **Union Banking Corporation** which represented the interests of the German industrialist, **Fritz Thyssen**, as well as the **Consolidated Silesian Steel Company**, which used **slave labor from the concentration camps**. Then there were the **Dulles brothers**, Allen and John Foster, partners in the law firm of **Sullivan and Cromwell**, which facilitated American investment in Germany knowing full-well of what was going on at **Auschwitz**. In fact, nearly 70% of all the money going to Germany in the 1930s came from America, many of them clients of Sullivan and Cromwell.

Furthermore, **Irénée du Pont** used GM money in 1936 to finance America's **Black Legion**, an organization with close to 200,000 members (including numerous police) whose purpose was to kill union organizers, prevent the auto industry from unionizing, and terrorize Communists, Jews, and other minority-group members. **Black Legionnaires** wore hoods and black robes with skulls and crossbones. Earlier, in 1933, the DuPonts started financing fascist groups in America, one of which, **American Liberty League**, drummed up hatred of Blacks and Jews and admiration for Hitler by distributing fifty million copies of Nazi pamphlets. In 1934, together with friends of the **Morgan Bank** and **GM**, DuPont backers organized a **coup d'état plot** against **President Franklin Roosevelt**. Not all of these corporations and individuals were anti-Semitic, *though*, many were motivated simply by the anticipation of massive

In **Episode One** Prescott Bush forwards American financing to his German partner Fritz Thyssen through the Union Banking Corporation in New York; Thyssen then arranges a contract with Nazi Germany's **IG Farben** company for free Jewish slave labor in Bush's steel manufacturing plant at the Auschwitz concentration camp. **Episode Two** shows ***Skull-and-Bonesmen*** Prescott Bush and ***Averell Harriman son of railroad baron Edward Harriman*** getting caught under the **“Trading with the Enemy Act”** as the US government moves in and seizes all of their shares in Union Banking Corporation.

In **Episode Three** Prescott's son ***George H.W. Bush*** is director of the CIA; he puts drug king ***Manuel Noriega*** on the CIA payroll, allowing thousands of tons of cocaine to hit the streets of America *via* the Panama Canal—with Arkansas Governor Bill Clinton laundering millions in illegal drug profits (from Mena <sup>2</sup>), which paid for his 1992 election campaign.

In **Episode Four**, **George W. Bush son of George H.W. Bush**—who served as the 43rd president of the United States from 2001 to 2009—becomes partners in a Texas oil company called **Arbusto Energy Oil Company** with ***Osama bin Laden's*** older brother **Salem bin Laden**,<sup>3</sup> *eldest of Sheik Mohammed Bin Laden's 57*

profits; yet anti-Semitism was quite rampant among the captains of industry in America beginning in the 1920s, when it was married to anti-socialism and anti-Marxism. The **New Deal** was seen as socialistic meddling and FDR as a pawn of Jewish interests, if not a Jew himself: (*He was often called Rosenfeld, and the New Deal the Jew Deal*). After the war, these evil capitalists concocted myths of innocence, and the country was only too happy to believe them.

<sup>2</sup> In 1979, the ***pro-communist Sandinistas*** in Nicaragua had finally overthrown the dictatorship of ***President Anastasio Somoza Debayle***, whereupon **President Ronald Reagan** became increasingly convinced that the presence of an actively ***Marxist regime*** in that country would spark ***revolution*** throughout the region and threaten the security of the United States. To combat this possibility, his administration ploughed massive amounts of military aid into a number of governments in Central America that

were beset by ***civil war*** and ***guerrilla fighting***. In late-1982, the **First Boland Amendment** was passed preventing the aggressive attempts by Reagan's administration to interfere with the state of affairs of **Nicaragua** and **Honduras** to overthrow the ***Sandinista liberation movement***. **Contra aid** had been authorized by Reagan in 1981, and by 1982 ***CIA operative, Adler Berriman Seal (Barry Seal)*** had begun operating out of ***Mena, Arkansas***. But it was not until Reagan's second term, beginning in 1985—using the release of a number of American citizens who were being held captive in Lebanon by ***Shi'ite terrorist groups*** as an excuse—that ***sales of antitank and antiaircraft missiles to Iran*** were even discussed or considered. The first direct transfer of arms did not occur until May 1986 when ***National Security Adviser Robert McFarlane*** and ***Lt. Col. Oliver North*** (USMC) secretly delivered arms and equipment to **Teheran** with a diplomatic note to the **Ayatollah Khomeini** from Reagan along with other gifts—contradicted the US government's publicly stated policy of refusing either to bargain with terrorists or to aid Iran in its war with Iraq, a policy based on the belief that Iran was a sponsor of ***international terrorism***. Prior to this direct contact, some weapons had been delivered through ***Israeli surrogates***, in an effort to foster goodwill and relations between Iran and Israel with the approval of McFarlane's successor as ***head of the NSC, Rear Admiral John M. Poindexter***.

Seal flew in and out of the ***Intermountain Municipal Airport***, located in Mena, Arkansas, both when **Bill Clinton** was the ***Attorney General of Arkansas*** and when he was residing in the governor's mansion in ***Little Rock, Arkansas***. in the late 1970s and the 1980s. The article, The **“Crimes of Mena,”** by investigative journalists ***Roger Morris***, who had been a member of ***LBJ and Richard Nixon's National Security Councils***, and ***Sally Denton***, was spiked, without explanation, at the last minute in January of 1995, by the ***Washington Post's managing editor and Skull-and-Bones' member, Bob Kaiser***, as the presses were literally set to roll. In the article, the journalists had written that ***Arkansas state trooper Larry Patterson*** testified under oath...that ***Governor Clinton***, himself an addict, was aware of what ***traffic in guns and drugs*** was going in ***Mena***—a hub in the clandestine network of ***State and Federal government crime*** fueling the massive ***crack cocaine epidemic*** of the 1970s & 1980s, as well as to the death and destruction of countless lives—and was definitely profiting from cocaine smuggling, money laundering and illegal arms exporting, and training of **Nicaraguan anti-communist Contra guerillas**. Mena was a major component in a larger operation that was known as the **“Enterprise,”** which was **“composed of retired military and intelligence personnel, arms dealers, and drug smugglers.”** It was directed by Ronald Reagan's **Vice President, George H.W. Bush, CIA Director, William Casey, and CIA career official, Donald P. Gregg**. Lt. Col. Oliver North and his ***CIA lieutenant, Felix Rodriguez***, ran the day-to-day operations in Mena. Profits from the cocaine was used to secure the domination of Central and Latin American governments by installing dictators... carried out under the fraudulent rubric of “national security.”

That **Vince Foster** and **Hillary Clinton** had been having ***a love affair*** for several years prior to ***Foster's homicide/suicide*** is beyond dispute. It has been alleged, by reliable sources, that Vince Foster had lengthy ties to the **National Security Agency (NSA)** and that he had also been a key player in **Iran-Contra “Enterprise.”** Moreover, Foster maintained ***a Swiss bank account*** when he was ***White House Deputy Counsel***, for the purpose of ‘laundering’ funds from covert drugs and arms sales operations, and “money were paid into that account by the foreign government of the **Terrorist State of Israel**.” Before Foster's death, Hillary informed him *that* he was under investigation by the CIA for espionage, *i.e.*, selling secrets to the Israelis. **Foster supposedly committed suicide by shooting himself in the head “twice”**—once just below the right ear under the jaw line and once in the mouth—with two different pistols. (*Shooting a person behind the right ear with a .22 caliber handgun is a favorite method of professional assassins.*)

Furthermore, an ***encrypted code number for a Swiss bank account*** was found in the trunk of Barry Seals vehicle after he had been murdered along with ***the personal telephone number of Vice President Bush***. Moreover, **Secretary of Defense, Caspar “Cap” Weinberger** had 2.3 million dollars removed from Seal's Swiss bank by hackers, who used this encrypted code. Was Weinberger also taking kickbacks from the sale of drugs and arms?

This same contradiction in the narrative was revisited in 2003 when the US invaded Iraq to oust ***Saddam Hussein***.

<sup>3</sup> Shortly after the elder Bush was appointed director of the CIA, **Salem Bin Laden** appointed an old friend of **GWB, Houston businessman James R. Bath**, as his business representative in Texas. In 1978, Bath purchased ***Houston Gulf Airport*** on behalf of Bin Laden. Not only was there a political aspect to Bin Laden's financial activities, which played a role in US operations in the Middle East, **Binladen Brothers Construction** (now the **Binladen Group**) building US airfields during ***Operation Desert Storm***, and in ***Central America*** during the 1980s, when the ***Reagan Administration*** secretly arranged for an *estimated* \$34 million dollars to be funneled through ***Saudi Arabia*** to the ***Contras***, in ***Nicaragua***.

*children (sired with his 12 wives) and head of the Bin Laden family fortune*, who was close to ***King Fahd of Saudi Arabia***. (The Bin Laden family kept tens and possibly hundreds of millions of dollars invested in American companies and financial institutions.)

**Episode Five** introduces George W's shady younger brother, ***Neil Bush***, who is busily ripping off the elderly in the ***Silverado Banking, Savings and Loan Assn. scandal***.<sup>4</sup> It was the largest theft in the history of the world and it was US taxpayers who were robbed—costing them 1.4 billion dollars. **Episode Six** would cover ***the Florida election***,<sup>5</sup> fixed by George W s older brother, **Jeb**

Through a tangled web of ***Saudi multi-millionaires, Texas oilmen***, and the infamous **Bank of Credit and Commerce International (BCCI)**, Bush was financially linked with the Bin Laden family until Salem, *like his father*, met an untimely end in ***a freak flying accident*** in 1988; but not before the **Arbusto**, founded in 1978, had become hugely successful. But, as the company neared ***financial collapse*** in September 1984, it was merged with **Spectrum 7 Energy Corp.**, owned by ***William DeWitt*** and ***Mercer Reynolds***, in an effort to stay afloat. The 50 investors—***political supporters of the Reagan-Bush administration***—who propped up the Bush company with \$4.7 million lost most of the money they invested in the company. As the hard times continued, with the company ***on the verge of bankruptcy***, Spectrum merged with **Harken Energy** in 1986—and, even though **Bush Exploration Co.** (*viz.*, Arbusto) had debts of \$3 million, Harken paid Bush \$2 million for his stock. In 1990, Harken received a contract from the government of the ***Persian Gulf state Bahrain*** to drill for offshore oil, although Harken Energy had never drilled a well overseas or anywhere in water. The Bahrain deal was brokered in part by ***Arkansas investment banker David Edwards***, one of ***Bill Clinton's*** closest friends. The Bahrain oil project resulted in two dry holes and Harken energy abandoned the project. **Two months before Iraq invaded Kuwait**, on 20 June 1990, the younger Bush broke the law by selling two-thirds of his Harken stock—212,140 shares at \$4 a share... for a total of \$848,560... that was \$318,430 more than it was worth—since the transaction was an ***insider stock sale***.

The BCCI connection, another murky international scandal involving another one of the original investors in Arbusto, **James R. Bath**. The infamous ***BCCI was shut down*** in 1991 with some \$10 billion in losses amid charges of ***multibillion-dollar fraud*** and global news reports that the financial institution had been heavily involved in ***drug money laundering, arms brokering, covert intelligence work, bribery of government officials*** and ***—here's the kicker—aid to terrorists***.

<sup>4</sup> The **Savings and Loan industry** had been experiencing major problems through the late-60s-and-70s due to ***rising inflation*** and ***rising interest rates***. Because of this there was a move in the 1970s to replace the role of S&L institutions with banks. In the early-1980s, under ***Reagan***, regulatory changes took place that gave the S&L industry new powers and for the first time in history measures were taken to increase the profitability of S&Ls at the expense of promoting home ownership. The industry was deregulated under the ***Reagan/Bush administration*** and restrictions were eased on the industry so much that abuse and misuse of funds became easy, rampant, and went unchecked.

The **Savings and Loan scandal** involved not only many members of the ***Bush family*** but also many ***other “above the law” politicians*** who remained in office during the ***Bush Jr. administration***. Between 1981 and 1989, when ***G.H.W. Bush*** finally announced that there was a **Savings and Loan Crisis** to the world, the ***Reagan/Bush administration*** worked to cover up Savings and Loan problems by reducing the number and depth of examinations required of S&Ls as well as ***attacking political opponents*** who were sounding early alarms about the S&L industry. Industry insiders were aware of significant S&L problems as early as 1986—and they knew it would require a bailout. This ***information was kept from the media*** until after Bush had won the 1988 elections.

**Neil Bush** became ***director of Silverado S&L*** in 1985; three years later the institution was belly up at a ***cost of \$1.6 billion to tax payers*** to bail out. ***Bush was charged with violating conflict-of-interest rules*** because, while serving on the Silverado board, he failed to disclose his business ties with ***Kenneth M. Good*** and ***Bill Walters***, two developers who were big borrowers at Silverado. The two men eventually ***defaulted on \$106 million in loans*** from Silverado. **House Banking, Finance and Urban Affairs Committee** records show that ***Bush approved major loans to Walters*** and *also* personally arranged for a \$900,000 line of credit from the S&L for a ***drilling venture in Argentina in partnership with Good***. What disturbed federal regulators most, *however*, was ***Bush's conspicuous silence*** in 1986 when Silverado released \$11.5 million in collateral pledged by Good, who by then was admittedly virtually broke. Instead, Silverado accepted \$3 million in cash from Good, figuring it was all the S&L could get. Good had borrowed more than \$30 million from the institution, but his developments were not selling. Bush ended up paying \$50,000 to settle out of court. Meanwhile, the chief of Silverado S&L was sentenced to 3.5 years in jail for pleading guilty to \$8.7 million in theft: (Keep in mind that working-poor people like us can get more jail time for holding up a gas station for \$50).

It should also be noted that shortly after news of Neil Bush's involvement in the S&L scandal hit the press his father, ***George Bush Sr.***, announced the **Desert Storm campaign in Iraq**, which subsequently had the result of making Neil's name quickly fade from the headlines. In addition, while ***Neil Bush's divorce*** proceeding were exposing more backroom Bush dealings, America was once again bombarded with war ***propaganda for Operation Iraq Freedom***.

The S&L scandal is by no means the only incident of questionable, and actually illegal, financial activity that the Bush family has been involved in. The line of ***questionable, illegal, and unethical businesses practices*** goes back at least to **Prescott Bush Sr. George H.W. Bush's father** (Senator from 1952-1963): Previous to his time as a Senator, Prescott was a banker and businessman; and, ***prior to the American entry into WWII***, Prescott was ***director of Union Banking Corporation***, which ***helped finance Hitler's regime*** (v.s.). As mentioned above, the **Concentration Camps of Nazi Germany** were slave labor camps that the Nazis used to make products for their regime as well as for sale to raise money. ***Prescott profited directly from the Auschwitz slave labor camp***. In 1942, after Hitler declared war on America, the United States government seized the Union Banking Corporation under the **Trading with the Enemy Act** as a front operation that was supporting the Nazis. Much of the profits from the operation were already pocketed by Prescott however, and \$1.5 million was put in a trust fund for George H.W. Bush.

<sup>5</sup> **Presidential elections in the United States** are not popular vote contests. The writers of the Constitution made it so that only the ***House of Representatives*** were ***elected by popular vote***. The ***Senators*** would be ***selected by state legislatures***, and the ***President*** would be ***selected by the electoral college***: The ***US Constitution*** set up an electoral system by which ***the winner of the election could lose the popular vote and still gain the majority of electoral votes***. A presidential election is ***based on a contest for electoral votes in 50 different states***, so a candidate can roll up large popular margins in some states while losing electoral votes to a candidate who won by narrower margins in other states. A presidential election outcome in which the candidate who lost the national popular vote ended up in the White House has only happened five times: 1), ***Donald J. Trump*** who lost by 2.9 million votes to ***Hillary Clinton*** in the 2016 election;

**Bush**,<sup>6</sup> whose campaign of dirty tricks put brother George into the top job at the White House by creating enough voter suppression, chaos and pushback against a ***Al Gore*** victory to allow ***the theft of the 2000 election***, despite the fact that he lost the national popular vote to Gore by well over a half a million votes—which brings us back to **Auschwitz** and ***the concluding episode*** with ***G.W. Bush visiting the slave labor camp where his grandfather helped build the Bush family fortune on free Jewish slave labor***. *The site is a sobering reminder of the power of evil and the need for good people to resist evil.*

As a follow-up to this TV mini-series, ***an awards show*** could celebrate the 20-year friendship of the Bush and Bin Laden families and their shared investment in the **Carlyle Group**<sup>7</sup>—one of America’s largest weapons contractors—for, for the Bush and Bin Laden families... ***war means profits! Big profits!*** And, although ***the mainstream mass-media creates the illusion of freedom of the press***, the dominant opinion and message is that ***the main-stream mass media always serves the bankers agenda***. The chilling reality is that up to 15% of the tax money deducted from our paychecks each month buys the bombs and pays the salaries of troops to commit atrocities and spill rivers of blood from innocent families and their children. Their blood is on everybody’s hands. **The plan for New World Order domination by *the evil Khazarean banker-mafiosa*** cannot be accomplished without our cooperation. That plan was formulated in 1773 by the **Mayor Rothschild-Goldsmith court Jews** in Germany—and is being perpetrated to this very day by ***13 influential Jewish families***, among them: the ***Rothschilds, Oppenheimers, Warburgs*** and ***Schiffs***. Their ***formula for global control*** is the “**Three M Formula**”: **money control, media control, and military control**. And these 13 families have control of the media and money monopolies! and new laws are being passed to transfer military control to these God-damned devils by ***privatizing the military***... but if they’re killing terrorists, who cares! if they are using ***government soldiers or corporate mercenaries*** who cares! A more important question to ask is: “Who exactly are the terrorists!? and where do these terrorists get their training!?” The answer is right smack in America—at **Fort Benning, Georgia**.<sup>8</sup>

2) ***George W. Bush*** who lost by 543,816 votes to ***Al Gore*** in the 2000 election; 3) ***Benjamin Harrison*** who lost by 95,713 votes to ***Grover Cleveland*** in 1888; 4) ***Rutherford B. Hayes*** who lost by 264,292 votes to ***Samuel J. Tilden*** in 1876; and, 5) ***John Quincy Adams*** who lost by 44,804 votes to ***Andrew Jackson*** in 1824.

Jeb, key orchestrator in the theft of the election, was assisted by ***Karl Rove*** as the sinister strategist and ***James Baker*** as the “*respected*” legal face of the pulverizing of Gore’s victory.

<sup>6</sup> Before becoming ***Governor of the Sunshine State***, **Jeb Bush brother of George W.** was a close friend of ***Raul Salinas de Gortari***, brother of former President of Mexico Carlos Salinas. Raul—who was a leading member of the **Mexican Drug Cartel**: The personal ***relationship between the Bush and Salinas families*** is a matter of public record. Former President ***George Bush***—when he worked in the oil business in Texas in the 1970s– had developed close personal ties with ***Carlos Salinas*** and his father, ***Raul Salinas Lozano***. When Carlos Salinas was inaugurated as President, ***the entire Mexican State apparatus become criminalized with key government positions occupied by members of the Cartel***. The ***Minister of Commerce*** in charge of trade negotiations leading up to the signing of NAFTA was Raul Salinas Lozano, father of Raul Junior the Drug kingpin and of Carlos the president.

Under advice from the IMF, the Salinas government launched a sweeping privatization program which became a multibillion dollar money laundering operation. Narco-dollars are channeled towards the acquisition of State property and public utilities.

Although the Bush administration was fully aware of the links of the Salinas presidency to organized crime, public opinion in the US and Canada was never informed so as not to jeopardize the signing of NAFTA: Carlos Salinas role in the Mexican drug cartel was known to US officials including US Attorney General Edward Meese prior to his inauguration as President of Mexico. US President George Bush is regularly briefed by officials from the Department of Justice, the CIA and the DEA. In other words, at the time the NAFTA Agreement was signed, both Bush and Prime Minister Brian Mulroney must have been informed that one of signatories of NAFTA had links to the Mexican Drug Cartel.

<sup>7</sup> What do former US Presidents George H.W. Bush and his son George W. Bush have in common with former Prime Minister Tony Blair of England, former Bundesbank Governor Karl Otto Pöhl, Germany, former US Finance Minister James Baker, former President Fidel Ramos of the Philippines and former Prime Minister Anand Panyarac from Thailand? The answer is: The Carlyle Group—a global network of partners and has invested heavily in port facilities, industrial complexes and oil refineries worldwide. With nearly \$ 200 billion assets the Carlyle Group is the world’s largest “silent” investor in the political controlled sectors: aerospace, energy and war industries—viz., the White House, the Pentagon and the US Federal administration.

Carlyle founder ☆ David Rubenstein even had the right first man in mind for the job as CEO: Frank Carlucci, longtime CIA director and defense minister under President Reagan. Rubenstein and Carlucci knew each other from their time in the Carter administration.
